Michel Boasts Increasing By-Products Industry

The following story appeared in last week's issue of the Star Weekly and because of its topic—coal mining, and the fact that most Coleman people know Michel and Sparwood, the Journal reprints the story.

by Douglas Blanchard

Diesel locomotives, oil and natural gas are putting the Canadian coal industry on the spot today, and the coal men are looking with interest at an experiment in the Crows Nest Pass that is paying off handsomely for miners and operators alike.

At Michel, B.C., they've built a multi-million-dollar by-products plant to turn out the coal tar base for more than 2,000 manufactured items that bulk large on the Canadian market. Soon the entire output of the mine will go through that plant, and gone will be the worries about fluctuating sales, shortage of cars, dieselization of railways and new sources of competition. The most startling to the visitor is the growth of a model town that looks right out of this world.

When you approach Sparwood from the west you'd never guess you're anywhere near a coal mine. Not even the pulp and paper industry can boast a cleaner, more up-to-date and colorful community than this. Its homes fairly sparkle in the clean mountain air. Yet the miners who live there with their families can drive to work in less than seven minutes.

"And we pay just \$1 for a lot that's 60 by 120 feet," said Manny Romano, community chairman last year. "The homes cost us about \$6,000 each and the company gives us credit for the expense. The place is ideal for our children and this year we're building a \$500,000 school that won't be beaten in Canada for modernity. We have all the conveniences of a city. We're just starting. Another 15 homes are underway now. We have 32 completed. And we can thank the by-products plant for our present security."

The Crows Nest Pass Co., sponsored the Sparwood project because it figured that a miner with a stake in the community and good surroundings for his family would do better work and stay there longer. It wanted to get away from the company town atmosphere so typical of coal mining communities on this continent. Its own Michel, built around the colliery, is company owned and operated. Its rows of uniform, grimy houses soon depress the visitor. There's as much difference between Sparwood and Michel as there is between day and night. The ultimate aim is to make the residential areas all like Sparwood. When it started the company was company ownership and a monthly rent. Now it has become practically all individual ownership.

No Finer Place to Live

There's practically no sickness at the new site. The company provides the lumber for any new construction—it comes from the surrounding mountains. Water comes from deep wells and springs. The fuel comes from the mines, many of which are in full view up the mountain. The RCMP does the police work—which is almost nil. The governing body consists of “row representatives”—one from each row of houses elected by ballot. There's talk of incorporation when a few more houses are built.

Mr. Romano is a typical resident. He was born in Italy and came to B.C. as a boy. He went back to Italy and returned to Michel to settle down. When Sparwood started, he moved out and built a home. He's raising a family of four boys, the eldest seven, and he's quite satisfied to spend the rest of his life in the new home. As he puts it: "There's not a finer place to live anywhere—and where else do you hear coal miners talk like that? Here's a living proof that coal mining and grime don't go hand in hand."

And what about the big by-products plant that's behind the new development? It looks like a long row of coke ovens with fantastic superstructures. And it gives out plenty of smoke and fog on a busy day—none of which reaches Sparwood. It's right at the pithead. The coal comes out of the mine and goes directly into the plant. At a temperature of 1,600 degrees the volatiles are driven off, the tar product is conducted to washers and scrubbers and stored in tanks. In liquid form it is pumped into special cars and shipped to plants in the east. Coke from the ovens goes to the huge Tadianac plant of the Consolidated Mining and Smelting Co. at Trail. Some goes as far as Toronto for special metallurgical use. Some goes to the U.S.

"At least 2,000 finished products result from the operations," said the preparation plant superintendent. "The tar is used to cements railway ties, lumber and all sorts of woodwork. It's used to make celluloid, perfumes, medicines, moth balls, buttons. In fact, it's more pertinent to ask what hasn't a coal tar base to it."

"We are now building our fourth battery in the by-products plant," said Irvine Morgan, underground manager. "Each battery costs about \$1,000,000. We will soon have a new railway all our own—although it won't be much longer than two miles. It will tap 190,000 tons of coal, which will be brought down the side of a mountain. This will be apart from our existing system of railways operated in the shafts by air locomotives. We can use this system because our shafts are horizontal instead of the conventional vertical type, which requires elevators.

"We have the largest deposit of coking coal in Canada. We mine about one-third of it on the strip method; that is, we just gouge it out of the surface. About two-thirds is mined by underground workings. Right now lack of manpower is the only factor limiting our production. If we could get enough men there would be almost no limit to our potential operations, because the by-products plant is giving us a stable as well as an insatiable market."

In the past two years 250 immigrants from Italy and Germany have been brought out to remedy the shortage of manpower. A higher degree of mechanization in all operations is another factor in helping the situation. The locker and shower rooms are equal to those in the most modern gold mines. Although the miners are highly organized under John L. Lewis, there hasn't been a strike, with the exception of the two-day meat strike during the last war. When the miners got an increased meat ration they went back to work.

Enough for 180,000 Years

Ninety per cent of B.C. coal comes from the Crows Nest Pass, according to officials there. The other 10 per cent is shipped from the Nanaimo area on Vancouver Island and a few scattered smaller operations.

"There are 24 different coal seams in B.C.—enough for 180,000 years—so there is no physical

Teddy Barnes Passes

Another link with Coleman's past was broken last week when it was learned that Edwin (Teddy) Barnes had passed away in Vancouver. A resident here since Coleman's early days, he was a survivor of famous Frank Bilde and well known throughout the entire Crows Nest Pass.

Born in Yorkshire, England, 77 years ago, Mr. Barnes came to the Pass in 1898 and was a member of the Masonic Order and active in sports during his life here. Passing away Sept. 28 at the home of a cousin Leonard Barnes in Vancouver, he was interred in a service held at Burnaby. B.C. A brother Ernest and Tom were holidaying in England at the time of his death.

Well known throughout the Pass he had worked in various parts of B.C. and Alberta, through the boundary country, Morrisey, Fernie, Michel, Hosmer, Coleman, Frank, and Bellevue. At the time of his retirement he was employed as an outside man by the International Coal and Coke Company. A fireboss for a number of years he served on mine rescue teams and worked in the tragic Bellevue and Hillcrest explosions.

Mr. Barnes, an active miner, worked in the Frank mine on the day of the slide and had an accurate impression of the mine and the men that worked in it. A survivor of the catastrophe, his life has been connected with the Frank slide in other ways, having been in charge of the blasting of the present highway through the slide in later years. Teddy Barnes and Ed Ash, of Coleman and a Tom McElroy were the men that found the Leitch girl that was claimed to be the only survivor.

In a story to the Journal a year ago Teddy cleared up a lot of mistaken ideas.

limit to the possible output," said Mr. Morgan. "We have the highest BTU value of any coal in Canada. Our product was chosen to steam the Flying Scotsman during its tour of North America a few years ago. So you see the idea of putting it through the by-products plant is not due to any inferiority feeling—it's just sound business. It keeps things going around the clock for a full work week all year. Some other mines are cut down to as little as one-day operation a week when there's a car shortage or some other hold-up."

When you visit the Michel mine you don't find what you expect. That's because the seams appear on the mountainsides and, instead of going down a shaft, you take a ride in a train on the level. The locomotives are huge gas cylinders with some wheels attached. The motive power is simply air compressed to pressure of 700 pounds per square inch. It's pumped into the locomotive at filling points, just like a conventional locomotive is given fuel. The air works the pistons and when the pressure is exhausted the thing won't go.

The eyes of 23,500 Canadian coal miners are watching the innovations at Michel carefully. They earn more than \$60,000,000 a year as employees in Canada's coal mines. By-products offer one possible solution of their problems. Other possibilities are coal fired gas turbine engines for locomotives and other power plants, and intensive research to find more efficient types of coal-burning heating equipment. As far as Michel is concerned, the answer to the coal question has now been found.

The miners there don't have to worry about the success of the gas turbine or new heating gadgets. It is more than they can handle to feed the big new by-products plant right in the centre of their town.

As much wood is used for fuel-wood in Canada as is harvested by the pulp and paper mills.

HIGH SCHOOL STUDENTS ELECT NEW EXECUTIVE

Campaign speeches filled the school rooms on Oct. 2 when candidates presented their views on aspiring for election to the student council for the 1953-54 term. Elections were held on October 5.

Wallace Neale was elected president, defeating Jim Wilkie, Ken Kouri winning the office of vice-president over Ken Lalithwaite. Jo-Anne Montalbetti won over Mary Wilson for the office of treasurer. The office of secretary was awarded Helen Makowichuk by acclamation.

The Junior High elections are scheduled for this week.

Coleman Lions Attend Zone Meet

Approximately 30 from Coleman attended the Lions' Zone social meeting at Turtle Mountain Playgrounds last week, total attendance being close to the 200 mark with representatives from Coleman east to Fort Macleod. J. R. Hill of Coleman presided as master of ceremonies.

Following the supper, members of the Coleman Lions provided entertainment. Harry Holmes and Polly Purvis presented their song and dance routine again drawing additional praise for their talents. L. Owen, H. Holmes J. R. Hill and B. Bond composed a male quartette.

SEEK NEW USES FOR ALTA. COAL

Alberta Industries Minister Dr. John L. Robinson has disclosed that the provincial government is planning construction of a research building to aid the province's sagging coal industries, find new markets and uses for coal.

Robinson made the disclosure following a cabinet interview with a delegation from the Alberta Associated Chambers of Commerce and Agriculture.

He indicated a full announcement on the project will be made at the annual meeting of the Alberta Research Council in Edmonton.

A copy of the resolution presented by the Chamber of Commerce on this matter was published in the Journal some time ago. This was brought to the attention of the Coleman Board of Trade in a report given by P. A. Dickeson of the annual meeting.

New Scholarship Offered Students

The Auxiliary to the CNP hospital met last Wednesday with the decision to sponsor a scholarship valued at \$50 as a runner up to the award made by the CNP Nurses' Assoc. This scholarship will be awarded the second highest grade twelve student who plans on entering nursing in 1954. The scholarship is open to all girls of the Crows Nest Pass.

It is hoped that the scholarships will encourage more girls to enter the nursing profession.

A letter of thanks was received from the Red Cross Blood Donor Clinic for the service rendered by the Auxiliary.

It was decided to purchase two over bed tables for the hospital.

A raffle of a food hamper will be held in November and all ladies are asked to contribute to the hamper. A sewing meeting will be held Oct. 21. Lunch was served.

Wood fibres when wet will adhere to one another as the water is evaporated. Thus is paper made.

Pulp and paper accounts for ten per cent of revenue freight car loadings in Canada each year.

Cut by Courtesy Board of Trade

Motorists and hikers report that fall colors were rich again this year. Beautiful contrasts could be seen where the above photo was taken, blending mountains, lakes and trees.

Now that Coleman is becoming more and more of a tourist center, it is interesting to read the tourist trade facts as issued by the Pacific Northwest Travel Association.

According to the report from June to September of this year

34,760 U.S. cars visited Alberta spending a total of \$3,962,640. The average family tourist unit (Canadian) was composed of two adults and one child, taking an average 13 days holiday and spending an average \$183.40.

Fire Destroys Property At Hillcrest-Mohawk Mine

Fire of unknown origin at the Hillcrest-Mohawk Coal mine at Bellevue on Sunday caused extensive damage. Investigation into the cause of the fire is underway.

Destroyed were the cleaning plant and the tipple commonly known as the old Mohawk Tipple. Flames were confined to the wooden structure of the old tipple and prevented from damaging the newer concrete tipple by

means of a protective fire wall. Also escaping where the loading bins on the south side of the C.P.R. tracks, which are connected to the main structure by means of a steel gallery complete with steel fire doors.

A permanent caretaker has been employed at the property since the mine closed some 18 months ago. This caretaker had checked the building just prior to the fire.

CNP Rifle And Gun Club Holds Successful Shoot

The Crows Nest Pass Rifle and Gun Club held a trap shoot at Blairmore on Sept. 27, reporting a very successful shoot. Main winners in the day's events were John Caruse, Fort Macleod (7 prizes); Geo. Brown, Blairmore (6 prizes); H. Nelmyer, Grand Union Hotel, Coleman; P. Dickeson, Blairmore (6 prizes); and C. Schultz, Blairmore (5 prizes).

Other winners were J. Yelliga, Coleman; J. Kerluk, Coleman; H. Morency, Blairmore; A. Yelliga, Coleman; K. Sherwood, Coleman; R. Venard and J. Magistri, Blairmore.

All prizes were donated by the following merchants: Thornton & Sons, Reid's Men's Store, Dobek Bros., Alberta Brewers Agents, Cos. Hotel, Morency Plumbing & Heating, Schultz Bros., C.N.P. Motors, Blairmore Hardware, Blairmore Exchange, Miners Service, United Cabs, Blairmore Motors, Kublik's Dry Goods,

Thompson, Paula's Stylewear, Trono Jewellery, Rudy's Shoe Store, Park's Grocery, Freemans, Fashion Shop, Coleman Hardware, Motordrome, Coleman Hotel, Huffmans, Bencks, Len's Garage, Holys, Owens, H. Nelmyer, Grand Union Hotel, Coleman Pharmacy, Zachs, Pattinson's Hardware, Chalmers' Jewellery, Coleman Cleaners, C.N.P. News, Purnell Theatres, Freeman Jewellery.

FRANCES DIBBLE of Coleman who has just returned from Toronto where she has been studying singing, will star in the Elgar and Elsie Higgins presentation of Gian-Carlo Menotti's "The Old Maid and the Thief". The production, a comic opera or grotesque opera as they are sometimes called, will be staged in Central high school auditorium Oct. 22-23, Calgary.

Fishing Nets And Threshers Standard Farm Equipment On Many Manitoba Farms

WINNIPEG.—On many Manitoba farms fishing nets rank side by side with threshing machines as standard equipment. A combination of summer farming and winter fishing makes the province both a major wheat producer and fishing ground.

In 1952 there were more than 8,000 part-time winter fishermen. Most of the fishermen engaged in winter operations are wheat farmers who take advantage of the slack times to earn extra money, sometimes almost doubling their incomes.

As a result, Winnipeg now is not only the home of Canada's only grain exchange but is the centre of the fresh water fishing industry in western Canada, handling the Manitoba production as well as neighboring provinces.

The annual catch from Lake Winnipeg alone totals almost 19,000,000 pounds. The total for the other lakes in the province, Winnipegosis, Manitoba, Dauphin, Waterhen, and about 50 northern lakes, runs close to 20,000,000 pounds. Production value has increased steadily from only \$1,051,547 in 1923 to the 1952 total of \$7,664,503.

Pickerel is the biggest catch, registering 5,966,700 pounds compared with the 3,751,000 pounds of saugers, the nearest rival. Other major catches include bass, bullheads, carp, catfish, goldeyes, mackerel, perch, pike, suckers, tulibee and whitefish.

The hub of commercial fishing operations is Lake Winnipeg, seventh largest body of fresh water in the world and second to Great Slave Lake as the largest lake lying entirely inside Canadian boundaries. Situated within 50 miles of Winnipeg, the lake is close to major canneries and fish dealers. The lake itself is 238 miles long and covers 9,300 square miles.

The valuable fishing resources are protected by the provincial government. An arm of fisheries department employees, including biologists, make detailed surveys of food supplies, water temperatures, and the spread of disease. One group devotes its time to recording the ages of fish caught every year.

A close check is kept on the number of fish taken from the lakes yearly, and the amount left for breeding purposes. Government radio-equipped launches pa-

GARDEN CART WITH DEEP HOPPER PATTERN 216
EASY TO STORE
The cart beats a wheel barrow in many ways when doing the chores around the homestead at the season. For instance, if it may be tipped up so that the front rests on the ground ready for leaves to be raked directly into it. The deep spacious hopper is two feet wide and holds a lot of litter, with fewer trips to the compost heap or burning pit. Having two wheels and a broad base is easier to handle than a barrow. Eight-inch disk wheels will be better than spoked ones. When the garden is cleaned up for winter, just remove the wing nuts and hang the cart in an out of the way corner of the garage. Pattern 216 carries large pictures of the construction route. Pattern is 35c.

REPAIR SPRINGS AND REMODEL OLD CHAIRS
PATTERN 312
A young commercial traveler set out for the first time to get orders in the West of England. At Plymouth he met an old traveller, who asked him how he had got on.
"Badly," he replied. "I was insulted at every place I visited."
That's strange," said the other; "I've been on the road 40 years. I've had my samples taken off the street and I've been taken by the scruff of the neck and pitched downstairs; I don't deny that I've been rolled in the gutter; but insulted never!"

A woman visiting the Holy Land went to a tourist office for information on roads. Told that it was now possible to go by car from Dan to Beersheba, she asked, "What is your land?" I never knew that Dan and Beersheba were places. I always thought they were husband and wife, like Sodom and Gomorrah."

Funny and Otherwise

At a popular port all the crew applied for shore leave except one man.
"What's the matter?" asked an officer. "Are you the only one who hasn't a wife in this port?"
"No," replied the exception. "I'm the only one who has."

Smith is a young lawyer, clever in many respects, but very forgetful. He had been sent to interview an important client, when the head of the firm received the telegram: "Have forgotten name of client. Please wire at once."

The reply was a masterpiece of sarcasm. It ran: "Client's name Jenkins. Your name Smith."

Farmer Jones sent his boy to the village railway station to pick up a chicken-coop he was expecting.

"Good gracious," shouted Jones when the boy returned, "what do you suppose you're got there?"

"Your chicken-coop, and I nearly broke my back lifting it." "Chicken-coop," roared the farmer. "That's the station waiting-room!"

"Darling, let's get married." "Why the hurry?" "Well, it would put an end to our being just crazy about each other."

The applicant for a position in the Government service stood before the Board of Examiners. As the last question one of the examiners asked, "What makes you think you are a suitable candidate for a post in the Diplomatic Corps?"

"Because, although I've been married five years, my wife still thinks I visit a sick friend every Saturday night."

He got the post.

Bride-to-be: "We'll have a white wedding, won't we, Sandy?"

Sandy: "Yes, if it snows."

A visitor calling on a young married couple marveled at the speed with which their five children were bathed and put to bed.

"How do you do it so quickly?" he asked.

"Oh, it's not too bad," replied the wife. "I wash and Bill wipes."

Bewildered, the guest was staring at the young son of the house, who was driving nails into the dining-room table.

"Thinking to his host, he said, "It's none of my business, but don't you find it expensive letting him play like that?"

The host smiled proudly.

"Not at all," he said. "I get the nails wholesale."

"There's only salmon mayonnaise left, sir."

"Well, bring me some, please and ask the orchestra to play The Roast Beef of Old England."

Sask. Honey Crop Normal

Saskatchewan's 1953 honey crop is expected to be about normal, J. H. Arnott, provincial Apiaist, said.

Mr. Arnott estimated that total production would reach about four million pounds, or about 25 per cent, more than last year. This production, he added, is from approximately 33,000 hives. Although the number is about the same as last year, the average production is expected to be about 125 pounds, an increase of 25 pounds per hive.

The Apiaist said Saskatchewan honey finds a ready market since it is of uniform high quality, and it overcomes little difficulty in selling the entire crop by early next year.

The reply was a masterpiece of sarcasm. It ran: "Client's name Jenkins. Your name Smith."

Farmer Jones sent his boy to the village railway station to pick up a chicken-coop he was expecting.

"Good gracious," shouted Jones when the boy returned, "what do you suppose you're got there?"

"Your chicken-coop, and I nearly broke my back lifting it."

Practical Education For Farm

The following is an excerpt from a series of short articles prepared for a Diploma Course in Agriculture at the University of Manitoba. The course is sponsored jointly by the Manitoba Department of Agriculture and the Faculty of Economics at the University. E. H. Lange, Director of the Course, is author of the series of articles.

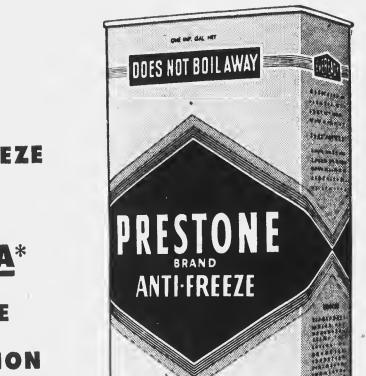

New and older crop varieties are compared and the foundations of cultural practices given. Livestock and poultry breeding, judging and management are emphasized. Field trips to outstanding breeders give the students an opportunity to see good herds and observe their methods of management.

Registration at the Provincial Normal school is expected to reach the 1951-52 record of 425 students.

Coney Island is a corruption of the Dutch word for rabbit-kennel.

Use Right Strategy At Right Time

If a team is to get the best results it must use the right strategy at the right time. Here is a list of several hints on strategy that will help your team play better football if you remember them well and put them into actual practice.

First, a smart team will not use the forward pass play, if their ordinary running plays are working well. They will perhaps fake or use the odd forward pass to loosen up the defense but they will concentrate on their running plays as long as they are gaining lots of ground. After all, why take a chance on losing the ball by having a pass intercepted, when you are gaining ground with safe running plays?

Don't throw all your passes to either side. Make sure you mix them up with short passes right down the middle. Such tactics will keep the opposing defense spread out and will stop them from gaining up at either end to smother your wide passes.

Always aim your running plays through the men on your team who are doing the best job of blocking. Make sure your quarterback checks at frequent intervals to see which of your players has an edge over his opponent. Above all, don't just mix your plays at random, shoot them at the weak spots.

Always save at least two or three of your best plays until you are inside your opponent's 40 yard line, from which position a score is quite possible. In this part of the field such tactics will usually tighten up and defend their territory with greater energy. Accordingly, you will need extra punch to keep moving. That's why it is wise to save at least a few of your best plays and use them only when you have

Kitchen Meditations By JANE DALE

LIKE DADDY'S
"Guess what I've got in my pocket?"
My five-year-old neighbor exclaimed.
His face lit up with a teasing smile.
At the objects that I named.
"A candy?" No, it was not that;
Nor a whistle nor a top.
Was it bubble gum, or a bright new dime?"
He said, "No" till I had to stop.
"See this?" He held out a jack-knife.
"It's sharp, and it's brand new!
I got it for my birthday,
And it's just like daddy's too!"

On The Side E. V. Durling

When a bride objects to the "obey" in the marriage ceremony, it is getting a marriage off to a bad start. No woman who really loves her man wants to object to "obey" him. In fact, she hopes he will be dominant in a reasonable way. There are indications that the percentage of failure is high in marriages in which the bride has requested the elimination of the "obey."

The Dictator Speaks

It was none other than Monsieur Christian Dior who offered the following sound advice, "May each woman look at her legs and find the skirt length that suits her best" . . . There are said to be 158,000 women pipe smokers in North America. Must be quite a picture of domesticity when a man and wife sit down after dinner to smoke their pipes.

Lions Are Never Tame

There is no such thing as a tame lion. A lion will appear tame and harmless for years and then suddenly break out in a fit of ferocity. Romeo, the lion that was featured in the film "Qui Vadis," is now with Sanger's circus in England. Recently a visitor to the circus, harboring the belief that celebrated animal was tame, put his hand through the rail bars of the cage to pat him. Romeo promptly tore the man's arm off.

Perfection Proves Boring

"As to all that raving about model husbands," writes a feminine subscriber. "I have a model husband. He doesn't smoke drink or gamble. He helps with the housework. He has no flairs. He brings me flowers and loves my mother. He handles his entire pay check and accepts an allowance I give him. He never forgets an anniversary. He bores me stiff. I like a man with a little spirit and arrogance about him."

Alimony For Husbands

Do you believe in alimony for men? An ex-husband who gets a regular alimony check is a rarity. He usually is ashamed of taking the money. Still, if a wealthy woman can't afford to give up his business she can catch him on a multi-million dollar bill and then make him pay alimony. It seems alimony for the husband is in order. An oil heiress recently became involved in a love affair with a man other than her husband. Her husband divorced her and sued for alimony. He was awarded alimony of \$75 a week. His wife's income is over \$600 a week.

Wise To Keep Quiet

Should a woman, about to marry, reveal her past to her prospective husband? This question has again come up for discussion. Personally, I think that it is an outstanding speech to tell the world of all your past sins. One day in a London coffee shop, the great writer Douglas Jerrold, and some men were discussing the marriage of a celebrated actress of the period. "I understand she told her husband about every previous love affair she had," said one man. "What a memory!" said another. "What a memory!" observed Jerrold.

Art of Cooking Hot Dogs

Are you a hot dog enthusiast? Frank Atkinson, the world-famous hot dog expert, says "The perfect hot dog must be cooked slowly for 10 minutes on a charcoal burner with direct heat. It must not be handled, because direct heat sterilizes the average hot dog. It must not be over two days old."

Legality in the Nude

At many bathing beaches in Norway and Denmark the girls do not wear bikini suits. They wear no suits at all. In those countries nude bathing is not illegal, and is accepted as being a normal manner in which to really enjoy a swim.

Patterns Cheer Up Chores!

by Alice Brooks

Strike a colorful note! One-day motifs are easy to embroider on kitchen towels! They're pretty pretty gifts, too.

Fun to embroider and display!

Pattern 7311 has six motifs

in a diamond one for every day.

Each is about 6x7 inches.

To obtain this pattern send

twenty-five cents in coins (stamps cannot be accepted):

Liquor Sales High

A news item in the Journal some time ago stating the amount of liquor sold at the government stores here and in Blairmore showed the amount to be greater than the average person anticipated. A more complete report of the profits the Alberta government is receiving from its beer and liquor sales has been released.

Total Sales Net Profit
Blairmore \$589,903 \$129,791
Coleman \$124,000 \$31,315

Coleman had lower sales than High River, Fort Macleod, and Taber and higher than Wetaskiwin, Pincher Creek, and Millarville. Medicine Hat were the southern Alberta points to beat Blairmore's total.

QUESTION: How should a wart suspected of being cancerous be treated?
ANSWER: It should be removed surgically, cutting widely around the edge of the wart so as to include all cancerous tissue that may have spread to the normal surrounding tissues.

MUCH ADO ABOUT NOTHING

A great deal of comment has been heard concerning the new CBC booster station and like other topics the grippers are doing the greatest amount of commenting All this is before the set goes into operation.

Some have got all steamed up blaming it for poor reception from Lethbridge and CFCN Calgary. They failed to find out if the station was operating before they started blaming it.

When it was pointed out that the booster has not yet begun operations, they switched to the probabilities and lamented as to what it will do. It is for this reason we reprint from the Journal of Sept. 2 the information that was supplied by those installing the station.

"The Coleman station will operate on a frequency of 1450 kilocycles and will be fed programs from either the Trans-Canada Network or the Dominion network from stations at Lethbridge and Calgary. Radio stations within a range of 10 to possibly 40 kilocycles might be affected by the increased volume."

First consider the frequency of the Coleman booster. Located at 1450 kilocycles it is far from the 10 to 40 kilocycles that trained men claim to be the interference area. How will this effect CFCN which operates at 960 kilocycles?

Second, if the unit retransmits choice programs carried over the two networks, which CJOC and CFCN are part of, is it not logical that we will get better reception on these programs?

Coleman has asked for better radio reception throughout the years. The CBC has made an attempt to supply it. If it were to satisfy the listening desires of everyone this step could not have been taken. If our attention was centered on interference and machines operating without condensers the greatest cause of poor listening would be done away with. Griping at the CBC for doing their share is not right nor sensible.

We hold no brief for the CBC nor its programs. If your editor was to express his choice of stations that should have received the boost they would have been CFAC and CKXL. Others will pick CJOC and CFCN, yet still others claim CBC shows such as "Jake and the Kid" and CBC Wednesday Night are their favorite programs.

Let's wait until it goes into operation before we condemn the booster station. If we don't like it then we can petition to have it taken out and go right back to our crackling, sputtering, whispering reception.

Theatre Notes

"SUDDEN FEAR" - Every terrored second swept her closer to desperation in heart-break...closer to murder...closer to a clash with the secret woman in her husband's life.

"CAPTAIN PIRATE" - Sale into the gale with the boldest raider of the seven seas. A story of the high seas Robin Hood when the passions ran hot and the blood ran cold on the high seas.

"FACE TO FACE" - This show offers you something new. This will have to be seen to be appreciated...two great stars in two great stories by two great authors. One is the stirring sea saga of iron men and wooden ships, the other the lusty laughter and tense suspense of the Texas frontier.

In Memoriam

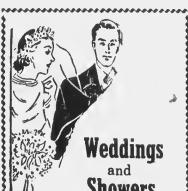

In Loving Memory of Teressa Filafilo who passed away Oct. 18th, 1952.

To live in hearts we leave behind is not to die.

Ever remembered by son Dente and family.

CARD OF THANKS

I wish to express my sincere thanks to all who attended or contributed towards my shower. A special thanks to the hostesses. Helen Hazuka.

**Weddings and Showers****COLLINGS - JENKINS**

On October 3rd, fall flowers bedecked St. Paul's United Church in Coleman for a wedding when Donna Doreen, only daughter of Mr. and Mrs. Geo. Jenkins, and Ronald Wilfrid, eldest son of Mr. Herman Collings and the late Mrs. Collings repeated marriage vows before Rev. T. Haythorne.

The bride given in marriage by her father was charming in a cocktail length gown of white lace and tulle fashioned over crinoline. The strapless bodice featured a short sleeve matching bolero and lace mit-

tens. Her finger tip veil of illusion net fell from a crown of white lace, trimmed with pearls and she carried a colonial bouquet of white carnations centered with a gardenia from which hung white knotted ribbons.

Miss Laura Owen and Miss Joan Lloyd both of Calgary, were bridesmaids in cocktail length gowns of turquoise blue and American beauty respectively. Their strapless gowns of tulle were fashioned over crinoline and complimented with matching stoles and mittens. They wore braids of tulle in their hair and carried colonial bouquets of carnations.

The groom was attended by his brother Mr. Weston Collings.

The guests were ushered to flower marked pews by George Jenkins brother of the bride and Bob Jessey of Calgary, cousin of the bride.

During the signing of the register Mrs. R. Cousins sang "I'll Walk Beside You."

Miss Diane Dickeson accompanied the soloist and played the wedding music.

Following the ceremony a wedding reception was held in the Grand Union banquet hall which was tastefully decorated with blue and white streamers and white wedding bells.

The bride's mother dressed in navy blue and wearing a corsage of pink roses and carnations received the guests.

The bride's table was covered with a cloth made by the grand Aunt of the bride and centered with a tiered wedding cake flanked by candlebra.

Mr. Dave Jessey of Calgary, uncle of the bride, proposed the toast to which the groom responded.

For their wedding trip to U.S.A. and points in western Canada the bride and groom chose matching blue suits, the bride complimenting hers with tan accessories and a gardenia corsage.

On their return the happy couple will take up residence in Coleman.

Out of town guests were present from Calgary, Fort Macleod, Fernie and the Pass towns.

.....V.....

FALL WEDDING IN COLEMAN

Rev. Father Holland officiated at the mid-morning wedding in Coleman, Alta., when Katherine Sophie, daughter of Mr. and Mrs. John Hulzdos of Bellevue, exchanged marriage vows with John Kovack, eldest son of Mr. and Mrs. John Kovack of Coleman.

The bride was escorted to the altar by her father who gave her in marriage. She wore a floor-length gown of white lace with nylon applique tulles overskirt poised over crinoline. The fitted lace bodice featured lily point sleeves and net yoke. Lace hand-ed her finger tip veil which misted from a coronet of orange blossoms and seed pearls. She carried red roses and wore the groom's gift of pearls.

Sister is Matron

Mrs. Roland Gray of Nordegg, attended her sister as matron-of-honor in a strapless gown of yellow lace and net with matching bolero. Miss Mary Hulzdos, Miss Helen and Miss Mary Suga were bridesmaids in gowns of pale green brocade, mauve brocade and mauve net respectively. They complemented their ensembles with floral coronets and carried colonial bouquets of carnations and 'mums'. The bride's young nieces, Mary and Sophie Anne Hulzdos were flower girls in long frocks of yellow organdy with coronets of flowers of carnations and 'mums'.

Attended Groom

The groom was attended by Mr. Kupczak, Peter Kovack, brother of the groom, Ted Kryszta and Roland Gray. Brothers of the principals, Alex Kovack and Gaspar Hulzdos, ushered. Mr. McIntyre played the wedding music.

Father Holland proposed the bridal toast at a reception in the church hall.

For a wedding trip to Coeur d'Alene the bride donned a red plaid ensemble with white coat and red accessories. Tiaras formed her corsage. The couple will reside in Coleman.

Out of town guests were Mr. and Mrs. Ed. Dumont and daughters of Edmonton, Mr. and Mrs. Alex Kovack, Mr. and Mrs. Rick Brown, Mr. and Mrs. T. Oliphant, of Calgary; Mr. and Mrs. Joe Katrichak and Mrs. Katrichak, sr., Mrs. Steve Letasy, sr., of Michel; Mr. and Mrs. Ira Gray, Mr. and Mrs. Roland Gray, of Nordegg; Mr. and Mrs. R. Gerding, Misses I. Bowden, L. Karr, M. Lawson, R. Spence, Mr. A. Hyslop and Mr. R. Stodder, of Vulcan; Mr. and Mrs. Steve Popson, sr., and Stanley, of Lethbridge.

.....V.....

Approximately 100 assembled in the Italian Hall last Wednesday night in honor of one of Coleman's popular young ladies, Miss Helen Hazuka. Miss Hazuka is a bride-elect of November.

Whilst and bingo were enjoyed during the evening, Bingo prizes awarded to Mrs. P. Meronuk, Mrs. J. Proc and Mrs. M. Drew. Miss Rose Omelsuk won the special prize. Whist winners were Mrs. H. Garner, Mrs. Jakula, and Mrs. P. Topak. The guessing contest winner was Mrs. E. Laing.

The honored guest was pre-

sented with a chrome kitchen utensil, through donations, several miscellaneous gifts from her friends. The hostesses' gifts were a trillight and ash stand.

Hostesses were Medemae E. Churlia, J. Katrichak, A. Orlando, A. Kropinak, M. Kuchtry, J. Kulig, K. Sherwood, J. Wakulich, B. Kiltivinsky, S. Pyplaz, T. Kropinak, L. Stanley, W. Habdaz, M. Czech, J. Johnson, O. Cernic, and B. Galica, and the Misses A. Habdaz, M. Olechow and H. Zajka.

Weddings

UDAHL — BLYTH

Kimberley United church was beautiful with gladioli and mixed garden flowers for the wedding on Saturday, September 12, 1953 at 2:30 p.m. of Christina Sked Blyth, daughter of Mr. and Mrs. Walter Blyth of Coleman, Alta., and Robert Edwin Udahl, of Prince George, B.C., son of Mr. and Mrs. Edwin Udahl of Birch River, Manitoba. Rev. F. A. McPhee officiated at the ceremony.

The bride was given in marriage by her father, and wore a strapless white nylon net over satin with a peplum of chantilly lace and nylon lace bolero jacket with bracelet length sleeves and Peter Pan collar. Her shoulder length veil fell from a coronet of pearls and orange blossoms and she carried a bouquet of pink roses and carnations. Her only ornament was a pair of pearl earrings.

As matron of honor, Mrs. Mary Vohradsky, sister of the bride, wore pink nylon net in strapless style with bolero jacket and carried gladioli and fern.

Miss Rose Bova as bridesmaid wore a matching blue nylon net and carried gladioli. Both wore chapel veils of nylon net falling from "bridal caps" of pink and blue tulle.

Mr. Dave Hall of the local R.C.M.P. Detachment was bestman with Mr. Vince Vohradsky, brother-in-law of the bride, ushering.

During the signing of the register, Mrs. J. Stuart accompanied Master Walter Vohradsky, young nephew of the bride, in singing "Because".

The bride's mother chose dove grey for her afternoon dress with mauve accessories with deep pink carnations corsage.

A wedding dinner was served to relatives and close friends at the home of the bride's brother-in-law and sister, Mr. and Mrs. Vince Vohradsky. The beautiful 4-tier wedding was embedded in pink tulle and rosebuds with

silver candleholders and pink tapers. Carnations and sweet peas completed the table decorations.

Rev. Mr. McPhee proposed the toast to the bride which was responded to by the groom. Telegrams were received from the groom's parents in Birch River, Manitoba, and from his brother and sister-in-law at Amayishan, Sask., who were unable to be present.

A reception was held in the K.P. hall attended by some 100 guests. Catered to by the Pythian Sisters, Mrs. A. A. Watkins and Mrs. J. Roskilly poured while the Misses Emma Bell, Pat Sommen and Gladys Omen served. The toast to the bride was proposed by the bestman, Mr. Dave Hall, which was responded to by the groom. Mr. Jas. Mills was the efficient M.C. and music for the evening was provided by Mrs. Mary Vohradsky, Mr. Arne Helland, Mr. Walter Blyth and Mr. Verne Bengton.

For her wedding trip to Winnipeg and Birch River, Manitoba, the bride donned a teal blue suit, white velvet hat with navy egret feather plumage with which she wore white and navy accessories, and a corsage of sweet heart roses.

Upon their return they will make their home in Prince George, B.C. A former member of the Kimberley telephone staff, Mrs. Udahl has joined the B.C. Telephone Company in their Prince George Office. The groom who is employed at Prince George, was formerly attached to the R.C.M.P.

**Young Monarchs
Visit Christ's
Birthplace***

World News In Pictures

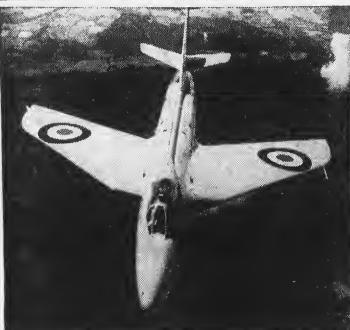

**Canadian Export
With Pakistan
Increasing**

CANADA'S GROWING EXPORT TRADE with Pakistan hit a "big package" note when the first six of an order of Diesel-electric road locomotives for the Eastern Bengal Railway were loaded recently. The units were manufactured at the London, Ont., plant of General Motors Diesel Ltd., the locomotives are destined for Chittagong, on the Bay of Bengal.

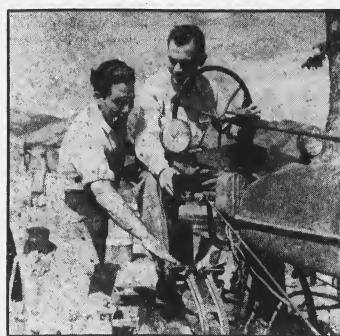

NOW THEY KNOW—Three youngsters from Chicago, Ill., discover what it means to "eat like a horse." The youths are shown while on an outing at the Curtiss Candy Company farm near Cary, Ill. Some 100 boys and girls attended the outing which was sponsored by a Chicago newspaper as a treat for city kids.

SWEPT-WING SPEED—A prototype of the sleek Hawker Hunter jet interceptor in which British test pilot Neville Duke smashed the world air speed record on warmup runs at Tangmere, England. Duke average 727.6 miles on the four required runs.

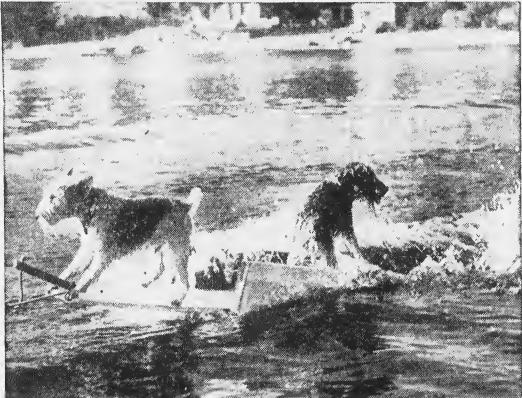

HERE'S THE BARBER—This little pup from Spokane, Kan., would like to get his paws on his barber. Seems he doesn't believe his new hairstyle is too fashionable.

Instructor Domingo Gomez, (left), explains the operation of a tractor to student Aldo Gonzalez. Field practice follows months of technical study in the classrooms.

Dr. Genaro Ruiz leads a classroom at Maracay. Daily classes fill an eight-hour day.

THEY REALLY LAP IT UP—Patrick McDougall taught his two wirehaired terriers how to ride on a surfboard three years ago, now they really lap it up. That's Amos in front, a picture of finesse, with his son Andy behind, a nonchalant free loader on this trip around Liberty Lake near Spokane, Wash. McDougall pulls the pair of dogs around with a motor boat.

VISIT TO HOLY LAND—Two teen-aged monarchs of the Near East—King Hussein II, left, of Jordan, and King Faisal of Iraq—hold ritual candles as they visit the place where Jesus Christ was born. Explaining the shrine to them is a Catholic priest.

OUR COMPLETE SHORT STORY —

WHILE WOMEN WAIT

By ALICE FISHER

A gathering storm made the heavy and the whys of the hard-rock mines grew louder.

Four women and their husbands worked the night shift, were gathered to play bridge. The storm would pass easier, together. Three of the women had an odd identical straightness of lip. Around their eyes were fine lines. The fourth, a bride newly arrived, fingered her cards.

"How can you stand this life?" she asked.

Grace glanced up. Poor little thing she thought. "Nella Bentley staked back the tall dark woman, who seemed so durable as to have second heart. Grace had not always been strong. She had once been slim and soft. But after twice nursing her husband through accidents . . . She dealt the cards expertly. There was a murmur of bidding, then Nella piped up again.

Dot remarked, "A man can't be a miner and get it out of his blood. My guess is that your Jimmy wants to stay and go not back to a job in the city."

Grace leaned across. "Nella," she advised. "Take Jimmy away and you'll see the difference. I tried it."

"Grace is right, Nella," said Mabel quickly. "Stop bating things and get to know the country!"

"Know the country!" exclaimed Nella. "Don't I already? Worried nights. Bears in the bush. I hate it." Her bracelets jangled as she slipped a card.

If you feel
ALL-IN'

These days most people work under pressure, worry more, sleep less. This strain on body and nerves plagues families, too. To help—here's a suggestion. Today's tense lives need lowered resistance, overwork, worry—any of these may affect normal kidney action. When kidneys get out of order, excess acids and wastes are eliminated through the kidneys. Rest, that "fired-out" heavy-headed feeling often follows. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Ask for Dodd's Kidney Pills at any drug counter. 53

Fashions

Slim Separates

4669
14½-24½

by Anna Adams

Best way to double your wardrobe — just whip up these smart separates in fifty-five! They're cool, comfortable, flattering—and they mix and match with all your blouses and skirts. For sporty full-length figures.

Pattern 4669: Half Sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16½ blouse, 1½ yards 35-inch fabric; skirt, 3½ yards.

This pattern easy to use, simple to follow, perfect for fit. Has complete illustrated instructions.

Send thirty-five cents in coins (stamps cannot be accepted) for this pattern. Write plainly Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept., Prairie Publishers Limited, 60 Front Street W., Toronto.

The Gulf stream, which flows around it, keeps the Arctic port of Murmansk, Russia, ice-free all year.

Grace sighed. "Of course, it's different from gasoline and dust. Dot turned to her.

"Have you experienced the high, clean air?" mused Mabel.

"What kind of a game is this?" giggled Dot. "I like wild raspberries and blueberries when they fall out of my pie."

"Pies—plenties!" confessed Grace. "Nella never leaves the town."

I'm scared of bears," confessed Nella.

Dot laughed. "You'd make a mighty morsel," she teased.

Suddenly the house shook. There was a dull sound of an explosion.

"A-blast!" screamed Nella.

"Steady," said Grace calmly. Nella was standing up, her face ashen. "I'm going, I have to know."

She found herself held gently in Mabel's arms. "Quiet," soothed Mabel.

"You wouldn't get past the gate." Then she turned to Dot, who sat riffling the cards, her own face white. "Put on the kettle, Dot. It's time for tea."

"Blasted!" she lips formed the word, as she faced Grace.

"I'll slip away and find out," Grace whispered. "Keep Nella here."

Mabel placed the girl in a deep chair. "Rest a bit," she comforted. "We'll all feel better for hot drink."

The two women chattered, but finally the question came.

"Where's Grace?" demanded Nella.

"She went for wood," Dot answered hastily. "Drink your tea and rest."

The sky broke, walling the house with its fury. Dot and Mabel played rummily, the slap of the cards marking off the minutes of the night and the departing storm.

Footsteps sounded and young men hurried, their faces haggard.

Nella opened her eyes. "Jimmy!" she cried. Then she was in his arms.

He spoke over her head. "Coffee, strong and black." He nodded at the other women.

"Jimmy," his wife gulped. "The blast, was it?"

"Yes, dear. I have to get back."

"No I won't let you," she cried.

"Please Jimmy, take me away."

"Nella," Jim asked, crisply,

"have you ever seen a car smash?"

"Oh, no," she replied. "I was in one."

"All right," he reasoned. "Have you ridden in a car since?"

"Of course—" Her eyes widened.

"Be a good minner's wife and get me some food," he said.

He hadn't told her that Grace was once more at the bedside of her husband; or that five men were still trapped in the mine. She would learn in time.

Man Who Introduced Goldeye As Manitoba Dish Dies At 72

WINNIPEG—Alfred Zanzig, 72, a circus personality who performed before royalty but who brought fame to the Lake Winnipeg goldeye, has died in the Manitoba community of Selkirk.

Mr. Zanzig, the former maître d'hôtel of the Fort Garry hotel, introduced the goldeye as a luxury food after seeing it served there when he last fished in Manitoba.

Mr. Zanzig was born in Latvia and, as a circus conjurer, performed for the Duke of Windsor, Czar Nicholas, the Grand Duke Nicholas of Russia and Kaiser Wilhelm.

In 1914 he started with the Canadian National Railways hotel system at the Macdonald hotel at Edmonton and later served at Minaki and Port Arthur before coming to the Fort Garry.

Pattern 4669: Half Sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16½ blouse, 1½ yards 35-inch fabric; skirt, 3½ yards.

NEW STAMP—This is the new 50-cent stamp, representing Canada's Textile Industries, which will soon be issued by the Post Office Department. New No. 2,000, 50-cent stamp, in color, displays on the left a bobbin from which threads unwind through an old-fashioned spinning wheel to appear at the right as folded cloth. The design is by P. A. Pollock, Toronto Industrial Artist.

Believed to Be Record

The following is believed a record in the annals of newspaper publishing: Mr. Chas. W. Venables, the publisher of The Echo, Hamiota, Manitoba, is 81 years old, and still on the job.

Mr. Venables states that he is the oldest active printer, also the only one with a record of nearly seventy years of type setting by hand. Away back in 1884 in his home town of Norwell, Ont., he started work at the age of twelve.

Dot, his wife, added: "I'm not the only Nella in the country," she said. "There are many others." The silence stretched out, broken only by Nella's sobbing, and the purring of the kettle. Dot's hands set out the cups.

"Blast!" her lips formed the word, as she faced Grace.

"I'll slip away and find out," Grace whispered. "Keep Nella here."

Mabel placed the girl in a deep chair. "Rest a bit," she comforted. "We'll all feel better for hot drink."

The two women chattered, but finally the question came.

"Where's Grace?" demanded Nella.

"She went for wood," Dot answered hastily. "Drink your tea and rest."

The sky broke, walling the house with its fury. Dot and Mabel played rummily, the slap of the cards marking off the minutes of the night and the departing storm.

Footsteps sounded and young men hurried, their faces haggard.

Nella opened her eyes. "Jimmy!" she cried. Then she was in his arms.

He spoke over her head. "Coffee, strong and black." He nodded at the other women.

IN ALBERTA
Diesel Course Offered This Fall

A six weeks' Diesel engine service and maintenance course will be offered this fall at the Provincial Institute of Technology and Art, Calgary.

The course, which is being offered for the first time, will give personnel a short, intensive training in the theory and techniques of Diesel engine maintenance.

Students will receive 120 hours of shop work on such subjects as cylinder re-boring, valve-adjusting, testing and re-building injection pumps, cylinder liners, cylinder heads, starters, fuel injection and cooling systems, lubricating systems, fuels, lubricating oils and horsepower.

No specific educational requirements are needed for entry, although the course is designed to benefit particularly those with experience in the operation and care of Diesel engines.

Course sessions run from November 9 to December 18. Enrollment is limited, so applications for the course should be made as soon as possible.

Drive With Care!

THE TILLERS

Fewer Turkeys On Farms

There were 2,800 turkeys on Canadian farms on August 1 this year, according to a special survey conducted by the Dominion Bureau of Statistics. This was a decrease of 14 per cent. from last year's corresponding total of 3,300,000, but an increase of 11 per cent. over the June 1 estimate of 2,615,000.

The August 1 estimates by regions follow, with June 1 estimates in brackets: Maritimes, 120,000 (92,000); Quebec, 430,000 (375,000); Ontario, 320,000 (568,000); Manitoba, 370,000 (355,000); Saskatchewan, 490,000 (470,000); Alberta, 550,000 (530,000); and British Columbia, 260,000 (225,000).

OLD HOME TOWN

KETCHIKAN, Alaska.—Who says the days of Alaska's Gold Rush are over? Short courses in mining are given at Skagway, Juneau, Wrangell and Ketchikan for gold-hungry amateurs.

COLD WINTER?

ROCK MOUNTAIN HOUSE, Alta.—The Cree, Chipewa and Stony Indians are predicting a long, cold winter because they have found animals' fur is longer this year.

FULL-SIZED APPLE GROWN AT INDIAN HEAD

INDIAN HEAD.—Recently an apple was brought to the Editor of "The Indian Head News" by a local grower. It was full sized, and easily meriting a place of distinction in the apple world. What lifted the apple out of the ordinary apples is the fact that it is grown at Indian Head, which is not the usual habitat of apples. The grower, Alf Hines, is a successful grower in all kinds of garden produce.

Since 1861, more people have migrated to Sweden than have left that country.

Why is it best? Quality.

"SALADA"
TEASuper for Supper—
made with MAGIC!

HOT BISCUIT SUPPER-SANDWICH

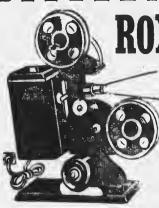

Season to taste 1 c. minced cooked meat with grated onion, pepper and cubes of cheese, mix with leftover gravy or cream sauce. Mix and twice, then sift into a bowl, 2 c. once-sifted pastry flour (or 1½ c. all-purpose flour), 1 t. baking powder, ½ t. salt, ½ t. dry mustard. Cut in finely 5 t. chilled shortening. Make a well in dry ingredients and add meat mixture. Mix with a fork, adding milk if necessary, to make a soft dough. Knead for 10 seconds on a lightly-floured board, divide in half and roll into 2 equal portions. Pat one portion into a round rectangle, spread almost to edges with meat mixture; moisten edges of dough with water. Pat second portion of dough on top of meat, place over meat mixture; press lightly around edges to seal; score top layer deeply into 6 pie-shaped sections. Bake in hot oven, 425°, about 20 minutes. Serve hot with brown tomato sauce. Yield: 6 servings.
